RHINOX[®]
XTREME PERFORMANCE

SPECIALIST ATTACHMENTS

Heavy duty construction with vertical tines for maximum strength

Heavy Duty Bossed Hangers

Lifetime guarantee on all welds

Standard Gap between the tines is 2.5" (60mm) to allow optimum sorting of rubble/soil

All teeth have lifetime guarantee against breakages

ADDITIONAL SERVICE OPTIONS

All buckets can be fitted with blades welded across the bucket teeth. Grading buckets are available with bolt-on wear edges to give added wear protection to the bucket. All blades are manufactured in house, and can be adapted to your specific requirements.

- We can offer bespoke branding option for buckets if required – Buckets can be branded with the machine manufacturer logo etc
- Buckets can be fleet numbered if required
