UNI-TUSK X1 BUCKET BLADE SYSTEM

Saving Lives and Reducing Maintenance Costs

MAXIMISE STRENGTH

- Sidecutter style bolt position reinforcing the bucket by locking the side plate and the lip plate together.

HEAT TREATED

- Heat treated cast steel to 550HB, adds extra life to the bucket and the **UNI-TUSK** blade.

ROUNDED EDGE

- Single rounded edge blade reduces the chance of penetrating underground cables and pipes.

FULLY REPLACEABLE

- Bolt-on / Bolt-off design so you can replace the **UNI-TUSK** blade, rather than replacing the full bucket.
